

“Perspektywy Women in Tech Summit 2018” will be the first such event in the Central and Eastern Europe and Central Asia (CEE&CA) addressed to female IT students and professionals. A record number of 1000 participants is expected from Poland, other European Union countries and Ukraine, Belarus, Russia, Kazakhstan, Uzbekistan, and Tajikistan. The Warsaw Summit will become a center of discussion about the future of technology and its social impact, and about women contribution in this vital area.

The Summit will create a meeting space for the female talents in technology. The participants will have the opportunity to listen to and meet the managers of the biggest global technology companies, to update their scientific and technical knowledge and to gain the tools for development of their own professional careers.

An accompanying Career Fair for students, with present offers from the top technology companies that place special emphasis on supporting and employing women, and interested in building a diversity culture in their organizations. Universities and IT faculties will present their achievements and establish contacts with high tech businesses.

Mariya Gabriel, the EU Commissioner for Digital Economy and Society will honor the Summit as its Special Guest.

The Perspektywy Foundation, along with our Partners, has prepared grants enabling you to participate in the conference for free. See what you need to do to obtain one of them!

Are you an IT/Tech student from Ukraine?

Are you studying engineering at one of the universities in your country and planning to build your career in the IT/Tech area? Can you communicate in English? We have great news for you – you can apply for a grant and participate in the whole event for free!

What does the grant cover?

- full participation in the 2 days of the conference
- materials
- participation in the evening event
